Mabson-Impeach Him.

Aside from the fact that the negro mongrel, Mabson, who misrepresents the county of Edgecombe in the General Assembly of North Carolina, is looked upon by all decent men, irrespective of party ties, with that contempt which such a contemptible specimen of humanity merits, his devilish brain has been at work of late striving to disturb the amicable relations existing between the two races in the county, which conduct in addition to other things we desire to bring to the attention of the law makers of the State.

A few evenings ago in the Court House at this place he made a speech of a most incendiary character. In alluding to a bill recently passed by the Legislature establishing wards in the city of Wilmington, he asserted that the colored inhabitants had determined to prohibit its operation by forcible resistance, furthermore that a bill similar in its nature would soon be presented relating to the town of Tarborough, urging upon its colored citizens in the event of its passage to take up arms and follow an example that would be set for them by men of their color in the city alluded to; that if they themselves failed to resist such an outrage upon their rights, the negroes in the county would take the matter in hand, which would bring about a conflict that he would not unreluctantly welcome.

His incendiary harangue was based then upon the presumption that the bill amending our charter would become a law. We wish in consequence to impress upon our Senators that there sits among them a representative of a county who openly defies a law, who strives to create a terrible riot, who invokes blood-shed: that there sits among them an individual who is upon his confession a seducer, and one who can be proven by the records of the House of Representatives to be a base perjurer!

We conceive, therefore, that such charges are sufficient grounds to drive him from the seat which he disgraces, and in the name of the people of Edgecombe county, we call upon the honorable Senators of the General Assembly to institute proceedings of impeachment at once against one of their body who is confessedly a seducer, evidently a perjurer, and basely a traitor.

How much longer will they permit a knave of his stripe to disgrace the Legislature of North Carolina?

Beecher-Tilton Case.

The theory of the defence is, says the Washington Critic, to prove that Tilton is a vain, smart, rebellious-minded and subtle young man, with an incurable ambition which would not stop for a point of principle; that he imposed himself on the innocent and unsuspecting Beecher as an able writer and pious young man; and when he reached the editorial chair of the Independent he got too big for his breeches, thought himself a greater man than Beecher, traduced him, antagonized him in his own lecture-room, was regarded by the Plymouth churches as an upstart, and hustled out. Then he tried to take the wind out of Beecher's sails on the Woman's Rights issue, by presiding at the Woodhill meeting, and introduced those questionable females at his own house, whereupon the virtuous Elizabeth asked her confiding Henry what she should do; and her confiding Henry replied: "Discipline him—leave him, and he will come to his senses." Elizabeth blew the confiding Henry's kind advice to her beloved Theodore, and he knocked the fat all in the fire. From that day he determined upon two things, viz: "Revenge and blackmail."

Bold Villainy.
Here is the glorification head lines which the National Republican, the President's organ, gives in large letters to the platform which the radical Congressional caucus has just adopted for the control of the southern States:

"Safety at Last!—Republican Caucus—Important Action Reached—A Political Bill Agreed Upon—Restoration of Peace in the South—Suppression of the War of Hellas—Caucus—Mentioned to be Published as Murder—The Registration of Voters Secured—Marshals to Have Extraordinary Power—Jurisdiction of the Courts Extended—Election Returns to be Protected—Rebellion Against State Government Defined."

This is all simply a law to enslave the south—to destroy the free ballot of the white man and place the ballot box in the hands of the negro and federal marshals. It is designed to ensure the 138 southern electoral votes to Grant in 1876. Habeas corpus is to be destroyed and extraordinary powers to be conferred on marshals. Upon this infamous bill the Republican remarks editorially:

"The work of the republican caucus last night will be received as 'glad tidings of great joy' by thousands of despotic loyalists in the south, and by other thousands of republicans of the north, who have feared that the present session of Congress would be frittered away without anything having been accomplished to secure the restoration of political power in the southern States to rightful hands."

Of course every opposition press will 'howl' at the passage of such a monstrous law which is intended to enslave the south, and retain and perpetuate the power of a military despot. We shall also be very much mistaken if the whole country does not 'howl' at such an infamous proposition.

Friendly Counsel.

Our neighbor of the Petersburg Index and Appeal, who regards North Carolina with an interest only second to that he entertains for his own Virginia, has been watching the Convention movement with solicitude. He comes to the conclusion that it is now too late for the experiment to be made; that the mere summons of such a Convention would strengthen the pretense of Grant and the ultra Radicals that revolution was afoot in the South, &c.

And the Raleigh News thus replies:

There is no such apprehension here, and what opposition there is to the call of a Convention, is on entirely different grounds, connected with questions of internal policy and party integrity. We do not imagine that the quiet exercise of a constitutional right can give occasion for interference in our affairs. We do not apprehend that we are giving offense to the President by the use of an amply recognized power to better our condition, even supposing that the President had that uncontrolled exercise of authority which the caution of the Index and Appeal would seem to imply. If we must shape our course by our fears, if we must adapt it to the anticipated pleasures of an autoer, then we are slaves indeed. The President, if he is determined on absolute power, need not wait the action of North Carolina to furnish the pretext.

We expect says the Raleigh News the Legislature promptly to respond to the suggestions which will be made to it by the Committee on behalf of the Trustees of the University in regard to the proceeds of the Agricultural fund donated by Congress. It is a fund for which the State is held responsible by the Congress, and whether unwisely perverted or imprudently squandered, North Carolina is held strictly to the trust. A recognition of the obligation and the annual appropriation from the public treasury of an amount equal to the interest arising from that fund will be sufficient to start the University again. Once under way, and it cannot be doubted that it will become, to a great extent, self-supporting. A judicious selection of its administrative officers will soon draw to it some of its former popularity, and restore its former renown.

It is interesting and satisfactory to see one after the other of the slanders against Southern States and communities refuted. Arkansas is one of the States included by Sheridan as among those overrun by the White League. The Governor of Arkansas has a thorough investigation into the matter and Grand Jurors were charged to make presentments when there was foundation. The Grand Jury of Little Rock have made a report, and find no foundation for the charges. There was not a single case of the alleged charges of intimidation or murder. The report and Grant's last message ought to be printed in parallel columns. He may not desire the truth, but the Northern mind begins to find it palatable, for peace and harmony are beginning to be as desirable to them as to us.

Usury.
We learn from our Raleigh exchanges of yesterday that the Usury bill passed its second reading on Wednesday and was made special order for yesterday at 11 o'clock. The matter no doubt by this time has become a law. Now we will see whether the "panic" that the opponents of the measure talked so much about will be as terrible as some folks imagined—particularly bankers and commission merchants.

"The surviving friends and relations of 'Conventions' are now wearing crepe, and show evidences of great sorrow on the death of the measure. Avery, of the Observer, will write the obituary.—Concord Sun.

We suppose the above was intended for wit. To us it only shows evidences of great want of common respect to a friend who honestly differs upon a question of expediency. It would grace a little, low Radical paper, but reads badly in one of our side, and we hope to see no more such low flings at a high subject.

The Civil Rights bill has been reported to the Senate by Edmunds, without amendment. He gave notice that he would call it up at the earliest possible moment.

The Washington Republican has been dealing some heavy blows at Mr. Merrimon. He may deserve them.—He is none of ours. Viper like he has bitten every party that has offered him assistance.

The donkey that Beecher rides at the Twin Mountain House during his summer vacations has not been summoned as yet.—Boston Post.

All the other asses have been examined.

Civil war or a third term is now the unquestionable purpose of Grant and his followers. It is their game for 1876. Both indeed will come if the one shall be found necessary to secure the other. Everything is drifting now in that direction.

Judge C. R. Thomas, congressman from this district, was the only member of the North Carolina delegation that voted for Civil Rights. We hope every white man in the district will give him his just deserts in the way of social ostracism.

Wonder how much the States of Louisiana and Arkansas will contribute to the Philadelphia centennial in 1876? The occasion is such an inviting one to those states which are in more slavery than the Colonies were under George the Third!

Wm. Cullen Bryant at the banquet given him in Albany the other evening toasted Gov. Tilden as the next President of the United States. Now if the poet-journalist be among the prophets and prophecy truly—truly we shall have good President. That is what we had to say.

The Philadelphia Press can't find words strong enough to express its condemnation of the Civil Rights which seems to be riving its party asunder at a fearful rate. It is 'clearly a mistake.' 'an abortion that had better be allowed to drop and die,' 'a measure which offends equally the colored people of the North and the White Leaguers of the South, which satisfies neither the Conservative Republican element North nor the Radical Republican element South,' 'a form out of which the life has fled.' Indeed it is well for their party readers that a Republican organ can occasionally tell the truth. Else they might be clean sodden in iniquity.

IMPORTED ONLY BY THE

Guanahani Guano Company, Petersburg, Va.

In offering this fertilizer to the agricultural community a second season, we do so with the utmost confidence, feeling satisfied that the high opinion we formed and expressed last season based on its chemical constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the plantation.

Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fall, and having large and well ventilated warehouses in this city and at City Point, we are enabled to put our guano on the market in a condition as to dryness, and freedom from lumps, equal to any Manufactured Fertilizer.

We solicit a careful perusal of our circular containing the certificates sent us, and which can be had on application at this office, or from any of our agents.

Having nothing to conceal, we make no innovation in our established usage by publishing those letters received unfavorable to our Guano, but careful enquiry in many cases, proves that the cause of its failure was not owing to any fault in the Guano, but to these far beyond our control. We have frequently heard the same complaints of its kindred Fertilizer—Peruvian Guano—but the concurrent testimony of well known farmers and from Maryland to the extreme western counties of North Carolina justify us in claiming a place for our Fertilizer, superior to many, and second to none.

We confidently expect the continued patronage of the agricultural community, and no exertion shall be spared on our part to make GUANAHANI the standard Fertilizer for the cotton, tobacco, and grain crops of the South.

AMMONIATED

Bone Super-Phosphate!

Having had several applications for the above OLD AND RELIABLE FERTILIZER, I have ordered a limited supply and shall be glad to furnish those who want it either for cash, on time, or for cotton of the next crop.

I am also taking orders for a fertilizer composed of equal parts of PURE OAK AND HICKORY ASHES, Plaster and Salt. This preparation was used in this county on the last cotton crop producing results equal to the highest priced manures, whereas this costs only about 1-2 price.

If preferred 1-2 ashes and 1-4 each Plaster and Salt will be furnished.

SPECIAL INFORMATION.

We have on hand the largest stock of Agricultural Implements ever brought to the Tarboro market consisting of PLOWS, SHOWELS, SPADES, &c., &c., which will be sold low. We are Agents for the

Soluble Pacific Guano, and Star Ammoniated Soluble Phosphate, ORCHILLA GUANO,

which are the best Fertilizers in the world. We guarantee the standard. By their use the consumer gets the greatest benefit from the smallest outlay. They have been used extensively by farmers throughout this section and pronounced genuine Guanos. They are ahead of all others.

READ THE FOLLOWING CERTIFICATES:

From J. J. Taylor. Toisnot, N. C., Oct. 25, 1874. Genls—I used the three tons of Star Phosphate purchased from you under contract, and beg leave to say that it has acted better on my land than any Fertilizer I have used in fifteen years. I am entirely satisfied with its results, and shall endeavor to induce my neighbors to use it next year. Very truly, J. J. TAYLOR.

From Hon. Mills L. Eure, Judge of the First District. Gatesville, N. C., Jan. 22, 1874. Genls—I used the Star Phosphate last year under contract, applied as the manufacturers direct. The result was in the highest degree satisfactory. I also used a small quantity in corn, applied in July, when hilled, sowing the land at the same time in peas. In my opinion the yield both of corn and peas was nearly doubled by the Fertilizer. I think the Star Phosphate possesses great merit, and I shall continue to use it so long as its application gives such gratifying proofs of its intrinsic worth. Very truly yours, M. L. EURE.

From W. A. Blount. Deaford County, N. C., Dec. 29th, 1873. Gentlemen—I take pleasure in recommending the Star Phosphate bought of you last season to all farmers, as a No. 1 Fertilizer. I consider it equal to any I ever used. Yours truly, W. A. BLOUNT.

Thousands similar could be given if necessary. These excellent Fertilizers will be sold on very accommodating terms.

For 425 lbs. good Lint Cotton, on or before 1st December, will give 1 Ton of either of the above, including the Fish Guano, purchasers paying freights upon delivery of Guano.
